

Admissions Procedures

Following receipt of the applicant's completed file, the Admissions Office will review the file and decide which applicants to invite for an interview. Following the interview and receipt of all necessary information, the applicant's file will be reviewed holistically by the Admissions Committee and assigned to one of the following categories: 1) Accept, 2) Waitlist/Hold, or 3) Reject. Applicants will be notified in writing as soon as possible following the committee's decision.

AACOMAS provides LMU-DCOM with official and verified transcripts; however, prior to matriculation, the applicant/student must update LMU-DCOM with official transcripts for any additional coursework and or degree conferred transcripts. **All acceptances are conditional upon the student completing all pre-requisite requirements and the Admissions Office receiving all required documents.**
